Shyness is the cause of much unhappiness for a great many people. Shy people are anxious and self-conscious; that is, they are concerned with their own appearance and actions too much. Negative thoughts are constantly occurring in their minds: What kind of impression am I making? Do they like me? Do I sound stupid? Am I wearing unattractive clothes?

It is obvious that such uncomfortable feelings must affect people unfavorably. A person's self-concept is reflected in the way he or she behaves and the way a person behaves affects other people's reactions. In general, the way people think about themselves has a deep effect on all areas of their lives.

Shy people, who have low respect, are likely to be passive and easily influenced by others. They need faith that they are doing "the right thing". Shy people are very sensitive to criticism. It makes them feel inferior(自卑). They also find it difficult to be pleased by praises because they believe they are unworthy of praise. A shy person may respond to a praise with a statement like this one: "You're just saying that to make me feel good, I know it's not true." It is clear that, while self-awareness is a healthy quality, overdoing it is harmful.

Can shyness be completely got rid of, or at least reduced? Fortunately, people can overcome shyness with determination since shyness goes hand in hand with lack of self respect. It is important for people to accept their weakness as well as their strengths. Each one of us has his or her own characteristics. We are interested in our own personal ways. The better we understand ourselves, the easier it becomes to live up to our chances for a rich and successful life.

32. What is the first paragraph mainly about?
- A. The cause of shyness.
 - B. The feelings of shy people.
 - C. The effect of shyness on people.
 - D. The questions in the minds of shy people.
33. According to passage, what can the writer agree with most?
- A. Self-awareness is harmful to people.
 - B. Self-awareness is a good characteristic.
 - C. Self-awareness is the cause of unhappiness.
 - D. Self-awareness is a weak point of shy people.
34. What is the shy people's reaction to praise?
- A. They are pleased by it.
 - B. They feel they are worthy of it.
 - C. They are very sensitive to it.
 - D. They feel it is not true.

35. According to the passage, shyness can _____ .

- A. enable us to understand ourselves better
- B. block our chances for a successful life
- C. help us to live up to our full development
- D. have nothing to do with lack of self respect

While it is impossible to live completely free of stress, it is possible to prevent stress as well as reduce its effect when it can't be avoided. 36

● 37

When you are nervous, angry or upset, try releasing the pressure through exercise or physical activity. Running, walking, playing tennis, and working in your garden are just some of the activities you might try.

● **Take care of yourself.**

38 If you easily get angry and can't sleep well enough, or if you're not eating properly, it will be more likely that you will fall into stressful situations. If stress repeatedly keeps you from sleeping, you should consult a doctor.

● **Make time for yourself.**

Schedule time for both work and entertainment. Don't forget, play can be just as important to your overall well-being as work. 39 Go window-shopping or work on a hobby. Allow yourself at least a half hour each day to do something you enjoy.

● 40

Stress can result from disorganization and a feeling that "there's so much to do, and not enough time". Trying to take care of everything at once can be too much for you and as a result, you may not achieve anything. Instead, make a list of everything you have to do, then do one thing at a time, checking off each task as it is completed. Set out to do the most important task first.

- A. Try physical activity.
- B. Make a list of things to do.
- C. Do whatever you like and want to do.
- D. You could smile to yourself in front of a mirror every day.
