

6月，郑州今天下午的天气格外炎热，六级考试也火辣辣的开场了，我想，六级的小伙伴们看着上午你们的学弟学妹们被四级考试碾压的时候，不知道你们心里是不是。今年六级写作没有像上午四级写作一样，反预测性质这么强烈，反倒轻度模仿了2016年四级写作二选一题目的态势（今年冬天还要考六级的娃子们是不是要多关注一下往年四级题目呢!!!），其中一套试卷考察在国内读大学还是国外读大学的问题（虽然没钱出去读，写一写的机会还是有的!!），题目难度中等，良心十足。

2017年6月六级写作范文（参考）：

College education has been regarded as an effective way to provide academic knowledge and self-improvement; therefore, how to acquire this education has meant a lot for most students. Obtaining college education in one's own country and attending college overseas are all available for certain people.

Being educated abroad, undoubtedly, equips students with multiple skills, since one has to overcome various difficulties in academic area and personal life. Specifically, using foreign language to accomplish tasks from teachers and professors has been a great challenge for most of them, not to mention that they may have to cope with many chores in campus life.

Besides, living thousands of miles away from home, these students may have to own the ability to take care of themselves, which is quite beneficial. On the contrary, attending college at home grants us more possibility to focus on what we are going to learn. Without the barrier on language, it is easier for college students to show their perspectives or explore the potentials, which contributes a lot to their academic performance.

To be frank, receiving college education does not involve the improvement in theoretical area solely. Instead, students are required to improve in various aspects, which means, having college overseas seems to be an excellent option, which deserves our attention.
