参考范文

These years, air pollution is getting worse and worse in big cities. Now cars are increasing very fast. Factories are continuing polluting the air. Trees are being cut down. So the hazy weather is becoming more and more serious. It's time for us to do something to protect the environment.

First of all, we'd better not travel by car unless it's necessary. We can take the bus or the subway, walk or ride a bike if we don't go far away. We can also set up a volunteer club and ask more people to join it. We can plant more trees, give the government advice to stop the factories polluting the air and water.

In a word, protecting the environment is to protect ourselves. It's our duty to protect our environment.
