# IX. 阅读理解(共 20 小题;每小题 2 分,满分 40 分)

What is your favorite color? Do you like yellow ,orange, or red? If you do. you must be an active person who enjoys life. Do you like blue? Then you are probably quiet, shy, and would rather follow than lead.

Colors do influence our moods ( 情绪 ) . A yellow room makes most people feel more cheerful and more relaxed than a dark green one; and a red dress brings warmth and cheer to the saddest winter day. On the other hand, black is depressing ( 令人压抑的 ) . There was a black bridge over the Thames River near London. The number of people who killed themselves on that bridge used to be larger than on any other bridge in the area ---until it was repainted green.

Light and bright colors make people not only happier but also more active. In the factory, the workers will work better, harder and have fewer accidents when their machines are painted orange rather than black.

ELECTRA CONTRACTOR

I'm glad to have received your letter. Our holiday life has changed a lot. Learning and relaxing are still very important to us. Besides, we often help our parents do housework or farm work. Through that, we realize how hard our parents work every day. And we can make a habit of laboring at the same time. Also, we take an active part in social activities as volunteers. Sometimes, we got to the streets to collect rubbish or go to the hospital to cheer up the sick children. We try our best to help people in need and make our home town more beautiful. We find great pleasure in all the social activities. Best wishes!

> Yours, Li Ming
