(M) I was so excited last month because my parents took my sister and me to London. We started off on Thursday evening. As soon as we arrived, we went on a tour of the city. The tour guide says London is really beautiful at night, and I was really looking forward to seeing all those famous places. On Friday, we went to the British Museum. It's not far from our hotel, so we went there on foot. In the afternoon, we visited the London Eye. I was excited about seeing the Big Ben from up there. Of course, Saturday was for shopping. We went to the most famous shops in London. At first, dad didn't feel like shopping, because he thought it was boring, but he enjoyed it when we saw so many fun stores there. We ended up buying some British traditional gifts for our relatives and friends. On Sunday morning, we took a taxi to Hyde Park. Although it took us more than 1 hour to get there, all of us thought it was worth the long journey because of the beauty of the park. Then we went home by train in the afternoon. It was my dream trip, and it did happen. However, there are many wonderful cultures that I haven't experienced yet, so I make up my mind to go there again when I grow up.

四、听力填空

本题你将听到一篇短文。请你根据所听内容,完成下面的表格,并将获取的信息填到答题卡相应的位置上。每空一词。读两遍。

Don't be too worried when you fail to order a hotel while traveling outside. You can try another more convenient way to choose your room on Airbnb. Airbnb is a popular app where people can share houses with others.

Airbnb was set up in the US in August, 2008 and it got to China in August, 2015. It has become one of the top 500 companies in the world. The number of people who use the app in the US has increased by 17 percent from 2017 to 2018.

You can put up your house on the app and make some money. The owners can enjoy the experience of communicating with different people for different places and get valuable friendship.

Most of the people can choose whatever style they like and live comfortably just as they do at home. Besides, the houses in the app are much cheaper than hotels.

It's true that Airbnb has its own problems. The safety problem should be solved to ensure the healthy development of the company.

Maybe the next time when you plan a trip, you can think about ordering a room on Airbnb.
