You might not think much about where your garbage goes. But now you might want to know. On July 1, Shanghai introduced a new garbage-sorting policy (垃圾分类政策). People there need to put different kinds of garbage into different bins (垃圾箱). Other cities in China will do the same soon.

There are four kinds of garbage in Shanghai. Recyclable garbage means waste things that can be used again, such as paper, books, boxes, newspapers, and glass bottles. Harmful garbage is harmful to people, animals or the environment. It includes lamps (灯泡), batteries (电池), nail polish (指甲油), and other things with harmful chemicals (有化学物质). Wet garbage usually comes from the kitchen, such as food, vegetables, flowers, leaves and eggshells (蛋壳). Dry garbage is anything you cannot put into the other three bins. It includes pens, toilet paper, tape (胶带), hair, and towels (毛巾).

Let' s learn to sort trash and save our planet from today! Now please put the garbage into correct bins.

Can students use cellphones to study? Yes, of course! Many students have reference books (参考书), but **they** might not be able to answer all of the students' questions. The internet, on the other hand, can answer nearly any question.

Take out your phone and you will find a lot of information. With this information, we can answer questions about different subjects. You can try to find the answer to a test question on your phone.
