A possible version:

In my opinion, I prefer P.E. It goes without saying that taking P.E. class can not only build up our body but also improve our mental health.

It was an experience that I would never forget. We have had all kinds of pressure because of examinations and homework since we entered Grade 9. Noticing this, our P.E. teacher took us to go climbing during one of his classes. Although it was hot and the path was not always smooth, we kept moving forward the top, smiling and talking. When reaching there, the beautiful feelings swept away all our tiredness and stress.

As the saying goes, "Sport is the source of all life." I think we should balance our main subjects and P.E. In addition, often take part in physical exercise. Then we will find how big a difference it will make to our study.
